present

Crafting Comfort, Building Style

LineaVita is a premium kitchen and bathroom cabinetry brand shaped by generations of woodworking mastery and an unwavering passion for refined design. Our story begins in 1945, rooted in the deep traditions of Turkish craftsmanship, where attention to detail, respect for materials, and pride in workmanship were not just principles-but a way of life.

Today, we carry this legacy forward by combining time-honored techniques with contemporary global design standards. By blending artisanal precision with modern production technologies, LineaVita delivers cabinetry solutions that are elegant, highly functional, and environmentally responsible. Each collection is thoughtfully developed to meet the evolving lifestyle needs of the African market, offering timeless aesthetics alongside durability and smart design.

At LineaVita, we believe cabinetry is far more than storage. It forms the structural and emotional foundation of living spaces. Kitchens are where families gather, conversations flow, and memories are created. Bathrooms are personal sanctuaries of comfort and renewal. Our mission is to shape these spaces with intention transforming them into environments that inspire daily living and reflect the identity of those who inhabit them.

Every piece we create reflects our unwavering commitment to precision, superior material selection, and meticulous craftsmanship. From the first design concept to the final installation, quality is not an option it is our standard. Our dedicated teams ensure that every detail is carefully considered, every finish perfected, and every project delivered with consistency and care.

Customer satisfaction lies at the heart of everything we do. We work closely with our partners and clients, building long-term relationships grounded in trust, transparency, and shared vision. From initial consultation to delivery, we uphold a simple yet powerful belief :

“Every happy client is a new reference.”

For us, success is not measured only by the beauty of our products, but by the satisfaction and confidence of the people who choose LineaVita to be part of their spaces.

LineaVita

Our Mission

At LineaVita, our mission is to combine the rich heritage of Turkish craftsmanship rooted in tradition since 1945 with contemporary design and advanced manufacturing technologies to deliver elegant, functional, and sustainable kitchen and bathroom cabinetry solutions.

We view quality not as an option, but as a fundamental principle. From concept development to final delivery, we operate with precision, transparency, and a strong commitment to customer satisfaction. Our goal is not simply to manufacture cabinetry, but to add lasting value to living spaces, build long term partnerships, and turn every satisfied client into a lasting reference.

Our Vision

Our vision is to position LineaVita among the leading premium kitchen and bathroom brands in the African market by merging Turkish artisanal excellence with a modern global design language.

We strive to become an internationally recognized brand associated with quality, trust, innovation, and timeless aesthetics setting new standards in sustainable production and refined living spaces.

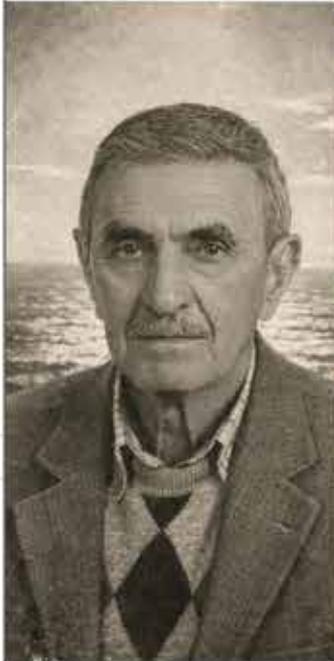

Our Core Values

- **Quality & Precision**
We uphold the highest standards of craftsmanship, paying close attention to every detail in every product we create.
- **Trust & Transparency**
We build long-term relationships with our partners and clients based on integrity, openness, and reliability.
- **Design Excellence**
We blend functionality with refined aesthetics to create timeless, user centered solutions.
- **Sustainability**
We are committed to environmentally responsible production and conscious material selection for a better future.
- **Customer Commitment**
We believe that “every happy client is a new reference,” and we act accordingly in every project we undertake.

1945

In post-war Turkey, Mr. Zekeriya Daskan began handcrafting doors and windows in the town of Pozanti, laying the foundation for a generational wood-working legacy.

1994

Mr. Savaş Daskan took over leadership, introduced kitchen cabinetry, and began modernizing and scaling the company's operations.

1980

Mr. Mustafa Daskan moved the family workshop to Adana and expanded the business, working alongside his son Savaş to shape its future.

A Timeline of Legacy and Craftsmanship

2000

The company operated from a 500 m² facility, steadily growing its capacity and customer base.

2010

The company operated from a 500 m² facility, steadily growing its capacity and customer base.

2015

The Daskan family expanded internationally, entering the South African market with their expertise in kitchen cabinetry.

2025

LineaVita was officially founded by Mr. Savaş and his sons, combining Turkish craftsmanship with global design to offer premium cabinetry solutions.

What We Do

LineaVita is a premium cabinetry and interior manufacturing company based in Johannesburg, South Africa. We specialise in designing, manufacturing, and installing high end custom joinery and architectural interior solutions for residential and commercial spaces.

We combine advanced manufacturing technology with refined craftsmanship to create interiors that are functional, durable, and visually exceptional.

Our Core Services

1. Custom Kitchen Manufacturing

We design and manufacture fully bespoke kitchens tailored to each client's space, lifestyle, and aesthetic preferences. Our kitchens are engineered for precision, efficiency, and longevity delivering seamless finishes, intelligent storage solutions, and modern design excellence.

2. Bedroom & Wardrobe Solutions

From walk in dressing rooms to built in wardrobes, we create customised storage systems that maximise space while maintaining a clean, elegant design language.

3. Bathroom Vanities & Storage

We manufacture premium bathroom vanities and cabinetry solutions that combine moisture resistant durability with sophisticated finishes and detailing.

4. Interior Doors & Architectural Panels

LineaVita manufactures precision crafted interior doors and decorative panel systems designed to integrate seamlessly with our cabinetry and interior concepts.

Our offering includes :

- Flush and feature interior doors
- Frameless and minimal profile door solutions
- Decorative wall panels and cladding
- Custom sized doors for residential and commercial projects

Each door and panel is manufactured with accuracy and consistency to ensure smooth operation, refined detailing, and architectural alignment within the overall space.

5. Custom Joinery & Feature Elements

We also manufacture :

- TV units and entertainment walls
- Study and office cabinetry
- Reception desks
- Feature wall cladding
- Bespoke furniture elements

Our Approach

At LineaVita, we provide a fully integrated service :

- Design consultation
- Technical drawings and detailing
- Precision manufacturing
- Quality control
- Professional installation

Every project is produced in house to maintain control over quality, timelines, and finishing standards.

LineaVita is a high end interior manufacturing company specialising in custom kitchens, wardrobes, bathroom vanities, interior doors, architectural panels, and bespoke joinery. We offer a complete design to installation service, delivering precision crafted solutions that combine modern design with long-term durability.

The Strength Behind Design and Production

A team whose dedication is felt in every detail and whose craftsmanship is reflected in every product... Combining heritage-driven expertise with a modern manufacturing approach, our team works together to add lasting value to living spaces.
